

# Agiloft and DocuSign

## Transact business faster, reduce costs and delight customers

Agiloft has partnered with DocuSign, The Global Standard for Digital Transaction Management™ to enable customers to automate transactions end-to-end. Together, Agiloft and DocuSign are helping customers achieve the benefits of digital business – including faster speed to results, lower costs, and a better customer experience.

Agiloft has integrated DocuSign's eSignature capabilities into its top-rated Contract Management, Help Desk, and Custom Business Process solutions. Through the DocuSign integration, Agiloft customers can securely send, e-sign, and store contracts, agreements, and other important documents with any number of signers, both within their existing Agiloft knowledgebase and at the DocuSign website. DocuSign lets you sign everything, everywhere, so you can transact business faster, reduce costs, and delight customers.

## The world's leading eSignature transaction management solution

Established in 2003, DocuSign has more than 40 million users who have signed over 330 million documents across 188 countries. They serve more individuals, small and medium businesses and Fortune 1000 companies than any other service provider.

## About Agiloft

As the global leader in agile contract lifecycle management (CLM) software, Agiloft is trusted to provide significant savings in purchasing, enable more efficient legal operations, and accelerate sales cycles, all while drastically lowering compliance risk. Agiloft's adaptable no-code platform ensures rapid deployment and a fully extensible system. Using contracts as the core system of commercial record, Agiloft's CLM software leverages AI to improve contract management for legal departments, procurement, and sales operations.
